

A Technique-Oriented Manufacturer to Meet all Customers' Requirements

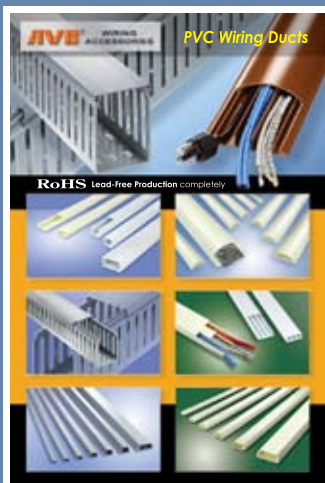

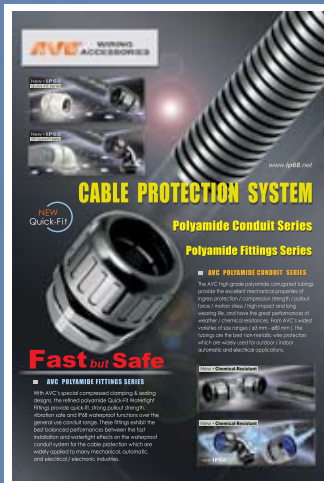

SINCE 1973

AVE® **WIRING ACCESSORIES**
made in **Taiwan**

In 1970, as a pioneer, AVC launched extruding production of wiring ducts, which inspired the industry of wiring accessories in Taiwan. In 1975, with advanced injection technology, AVC produced the first piece of cable ties in Taiwan leading the industry of wiring accessories again. Since 1980's, AVC has been continuously researching and developing in guiding many innovated wiring accessories into the market. Up to date, AVC owns ten thousand items of wiring accessories, which are satisfied by many prestigious customers. With more than three decades experiences in production of wiring accessories, AVC has become the most professional manufacturer of wiring accessories in Asia. In order to serve customers worldwide, AVC has set up many distributors / agents in many countries; in Japan we also have our own branch office to serve the tremendous demands. AVC quality products are widely adopted and certified by many prestigious customers in Europe, America and Japan. All AVC products are designed and manufactured at its headquarter in Taiwan. All procedures including design, R&D, production, inspection etc. are completed in its own factory to assure the high quality requirement. To meet speedy progress and variation of industry demands, AVC not only cares the quality issue for customers but also provides the solutions to meet varied requirements of customers. AVC complete and comprehensive product range and advanced technology in development is your trustworthy manufacturer and partner in Taiwan.
